 2100 mm HEIGHT

Can be cut & rejoined to length onsite

AES4 Col Vic
 70 mm x 70 mm FROM CORNER
 ↓
 up to 3600 mm HEIGHT

Can be cut & rejoined to length onsite

External staffs are used on external corners of walls set flush into walls eg. Archway openings and chimney breasts. A cut can be made towards bottom to fit to desired height by removing a section then rejoining. Please ask for more information. Please note that plasterboard should be stopped 70mm short each side when installing External Staffs
